

Mystery Of Londenberg

Final Bug Report

General Remarks:

- Change "Tutorial" to "Controls"
- Sometimes text overlaps the "advance dialogue" button

Area Specific Remarks:

- Londonberg 's lamp post colliders do not work as intended (Not that interest)
- In Omberg's mansion, after you find Rene's Diary and the 2 pages, Poro's dialogue outside of Omberg's mansion is outdated and tells you to go to the inn.
- In Alex's house, the colliders of the purple and blue walls are too high.
- In Omberg's bedroom, the wardrobes' colliders allow you to walk on top of them.
- In Omberg's living room, interacting with the right bookshelf shows Rose's dialogue even when she isn't in the room.
- In Omberg's living room, you can walk on top of the north wall.
